

How to capture and understand the diversity of food choices in a culture-specific context?

Objective:

Capture diversity in food choices through Expert Elicitation (EE) using Gastronomic Systems Research (GSR) Framework

Target Population:

Low- to middle- income households of urban and rural areas

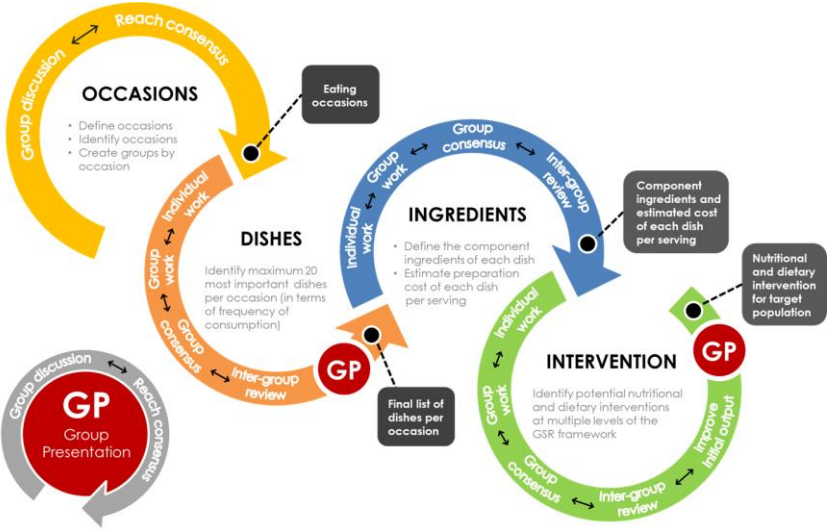

Arindam Samaddar^a, Jhoanne Ynion^a, Marie Claire Custodio^a, Rosa Paula Cuevas^a, Suva Kanta Mohanty^b, Anindita Ray (Chakravarti)^c & Matty Demont^a

^a International Rice Research Institute (IRRI), Philippines, ^b Kalinga Institute of Industrial Technology (KIIT) & Institute of Rural Management, Anand (IRMA), India; ^c Maharani Kasiswari College, University of Calcutta, India

Expert elicitation

Calculation of macronutrient and calories of dishes through laboratory standardized recipes

Note: replicate this template to record the information for each dish

0 Srno (Serial number) [input here]

1a Name of dish in English: [input here]

1b Name of dish in Bengali or Oriya: [input here]

2 Dish description: [input here]

3 Ingredients (Main & Condiments/ Accompaniments)

3a. Name (Local/ Eng) [input here]

3b. Amount (gm) for 1 serving for adult [input here]

3c. Cost for 1 serving for ad (in Rs.) [input here]

4 Preparation method [input here]

5 Time (in minutes) required for preparation (including cooking time) [input here]

6 Fuel cost (in Rs.) [input here]

7 Total cost (in Rs.) of dish [input here]

8 Photo [input here]

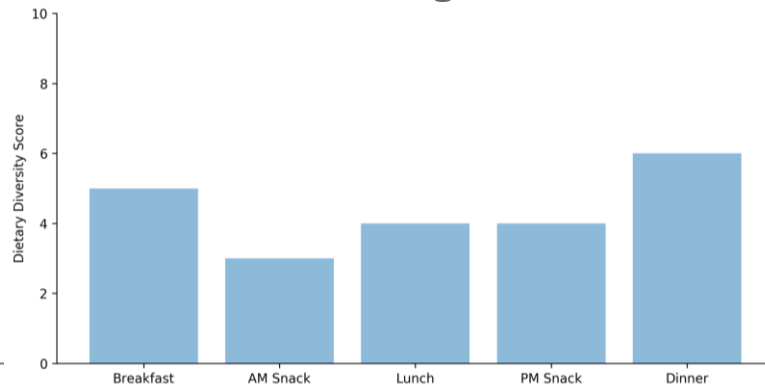

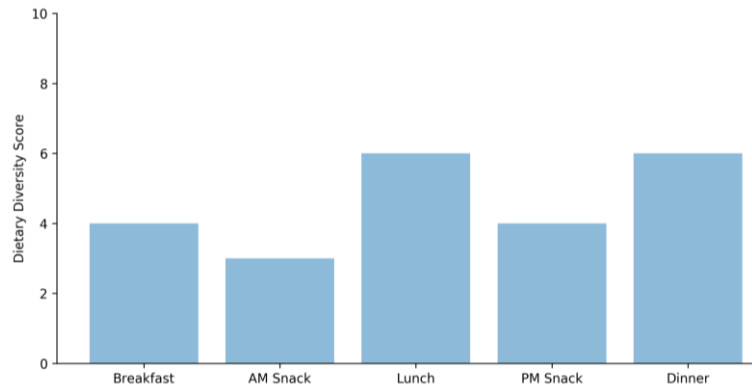

9 Comments (if any) [input here]

Drivers of food choice: Food lab protocol

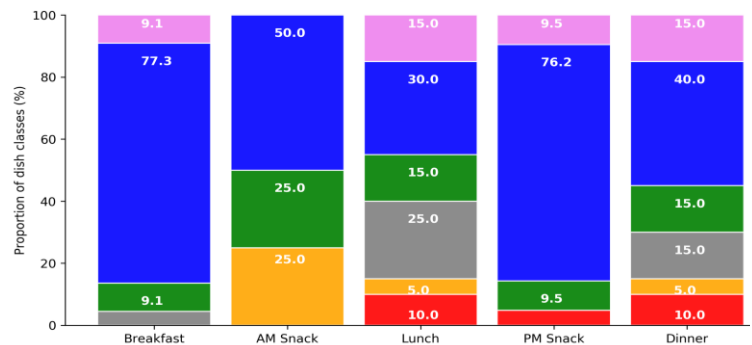

- A list of dishes for each eating occasion will be provided by IIRRI team after discussion from your side. A unique code will be assigned for each dish. Dishes for breakfast, morning snacks and afternoon snacks will be prepared separately/individually. Dishes for lunch and dinner will be prepared as one. This means that common dishes between lunch and dinner will be prepared once.
- List all the essential kitchen utensils that needs to be purchased and prepare a budget for this activity.
- For each dish, input the following information by using the template in the next sheet. Replicate Dish code: input unique code for each dish. Replicate the dish template and use it for each dish.
 - Name of dish in English
 - Name of dish in Bengali or Oriya
 - Dish description: provide a short description of the dish

Recipe_No	Dish	Ingredient	Amount_gm	rbh	hydrate	Protein_gm	Fat_gm	Energy_kcal
